

FUSA-HCC BOT Bargaining Meeting
June 18, 2007
1:30 p.m.
Dale Mabry, DTEC 409

In attendance were the administrative team members: Mark Levitt, Craig Johnson, Sue Flaig, Carlos Soto, Karen Griffin, Donna Miller, and guest Chad Hyatt. FUSA bargaining team: Michael Moats, Alex Ambrioso, Cindy Hewitt, Eric Joost, Mara Manis, Maribeth Mobley, and Barry Silber.

Administration proposed an online student evaluation form to be administered by SNAP, which they said insures student anonymity and one evaluation per student; and administration proposed additional language to be added to 9.1.C., covering distance learning evaluations. FUSA responded that we could accept an online evaluation process with appropriate safeguards and would work with the administration to establish guidelines.

In answer to FUSA's earlier proposal to eliminate 9.1.B. and D., administration stated it did not want to eliminate goals and assessment from the contract, but wanted to form a committee to determine a new approach tied specifically to the college's strategic plan to be implemented in a pilot program for a year after its development. Administration requested that FUSA propose language at the next bargaining session to address this idea.

Administration proposed in Article 6.18., changing language to specify "discipline," instead of "area" and placing the dean on the screening committee as chair. FUSA responded that we would need to review the proposal and would respond at the next meeting.

Administration proposed changing "two full years" to "four full years" and eliminating the dates in article 8.1.G. This article was TA'd.

The next meeting is scheduled for Friday, June 22, 2007, 9 a.m. – 12 noon, DTEC 409.
